Rule for Male Entries at Society Approved Sales

The Hebridean Sheep Society has a number (currently 3) of Approved Sales for pedigree Hebridean Sheep. To safeguard the quality of male sheep forward at these sales and to ensure a reasonable balance between the numbers of male and female sheep available, this rule must be included in the schedule for approved sales.

- Each vendor may present one male for sale without restriction.
- A vendor may enter further males for sale only if each is balanced by three female entries forward for sale on the day.

Number of males entered	Min number of females presented for sale
1	0
2	3
3	6
etc	etc
